# **SURFACE TREATMENTS**

Standard ALPOLIC®/PE with a polyethylene core is available in the following finishes: FEVE (LUMIFLON<sup>TM</sup>) with a wide color and gloss range and PVDF, both fluoropolymer finishes tested to meet AAMA 2605, polyester, and class 1 anodized. Other available ALPOLIC® finishes include Stone and Timber Series and Reflective Finishes (RF).

### STANDARD PANEL SIZES

50" x 146" 62"x 146" 50" x 196" 62" x 196"

# **RANGE OF SIZES**

# **SURFACE TREATMENTS**

ALPOLIC®/fr (fire-retardant) with a mineral filled core offers the same flatness, rigidity, workability, formability and quality features of standard ALPOLIC®/PE. ALPOLIC®/fr is curvable to a 6" radius and can be joined with hot melt adhesive to form complex shapes. In addition, ALPOLIC®/fr is available in the same full palette of bright, clean colors and gloss ranges as standard ALPOLIC®/PE, as well as Stone Series, Anodized and Natural Metals. Extensive fire performance laboratory testing by independent testing agencies in accordance with requirements set forth by IBC has established ALPOLIC®/fr approval on Type 1, 2, 3, 4 and 5 Construction throughout the United States and Canada when used as a wall cladding material.
