

# ALPOLIC

## LEED CONTRIBUTION DATA SHEET

The following has been developed to provide the information needed by the LEED project team for the determination of the contribution of the ALPOLIC ACM panels towards specific LEED New Construction and Major Renovation points. In the event further information is required contact ALPOLIC.

### ALPOLIC Painted Aluminum Composite Panels

#### Indoor Environmental Quality

All coatings applied to the ALPOLIC Painted ACM panels are factory applied using a coating line with an in line regenerative thermal oxidizer, which eliminates the release of the VOC content of the coating. By factory applying the coatings the need for field painting and the accompanying VOCs are eliminated.

#### Innovation in Design

The high recycle content of ALPOLIC Painted ACM panels can support the projects exceeding the recycle content required, thereby qualifying for an Innovation in Design credit. ALPOLIC Painted ACM panels also provide a highly durable and long life time cladding option.

#### Building Product Disclaimer

Environmental Product Declaration (EPD) and Product Transparency Declaration (PTD) reports are available for download from our website, [www.alpolic-americas.com](http://www.alpolic-americas.com).
