ALPOLIC[®]
METAL COMPOSITE MATERIALS

Trust ALPOLIC to be the face of your brand

Color is our foundation. Since 1991, we have supplied our metal composite materials to some of the most well-known companies in the petroleum industry.

We help you stand out with customers without the worry of fading, peeling, or warping in colors that can be custom matched to your brand's unique needs.

Let us help your station canopy and storefront be a beacon for business.

WHY CHOOSE ALPOLIC[®]

FEATURES

BENEFITS

Strongest Warranty

Protects the value of your brand, eliminating installation costs to the station owner for manufacturers defects.

Primed Both Sides of Skin

Inhibits oxidation and white rust that can adversely affect paint and core adhesion.

AAMA 2605 FEVE Paint

Highest performance criteria for architectural paint, exceeding 10 years in south Florida exposure test.

High Gloss Finish

Unbeatable gloss levels without having to use a polyester resin system, which will not hold up to UV rays.

Custom Production

We can produce striped products, meaning you can get two or three colors in one panel. Provides flexibility in custom colors or custom sizes/cores to give client exactly what they want.

Sizes: 3mm, 4mm

A range of thicknesses to meet application needs.

Custom Lengths

Need a custom length? We can do that without an upcharge.

Technical Service Department

Dedicated resource for navigating performance, application, and code compliance.

Squared Sheet

Eliminates the need to have to square one side before fabrication.

Product Good Side Up or Down

Easier loading onto CNC table.
